## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-3, 5-16, 26-27, and 32-34, only as the claims are drawn to IRF-3 protein and pharmaceutical composition comprising IRF-3 protein.

Group II, claim(s) 1-2, 4-7, 17-21, 26-27, and 32-34, only as the claims are drawn to IRF-7 protein and pharmaceutical composition comprising IRF-7 protein.

Group III, claim(s) 22-25, only as the claims are drawn to nucleotide sequence encoding IRF-3 protein.

Group IV, claim(s) 22-25, only as the claims are drawn to nucleotide sequence encoding IRF-7 protein.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: PCT Rule 13.2 requires that unity of invention exists only when there is shared same or corresponding technical feature among the claimed inventions. All of the groupings are directed to molecules, either specific protein molecules or specific nucleic acid molecules. The chemical, structural, biological, and physical properties of the molecules of each group are different from each other and thus the groups do not share a technical feature with each other.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
